Washington, July 23.—Congressman John M. Pattison, of Ohio, left for home Friday to remain until next winter. Before leaving the capitol Mr. Pattisor by regulating insurance among the states. Mr. Pattison says that if the bill should become a law it would give the several million policy-holder in life companies the additional security of national supervision and the country. The bill provides for a national insurance department under the country. The bill provides for a national insurance department under the country. The bill provides for a national insurance department under the country. The bill provides for a national insurance department under the country. The bill provides for a national insurance department under the cup of the country. The bill provides for a national insurance department of the cup of the treasury. It includes life, fire, marine, accident and indemnity companies doing business in more than one purely preligious, charitable or benevolent character, a chief officer of the bureau to be appointed by the president, with the approval of the senate. All expenses of the entire bureau, including the companies themselves, according to assets. In this respect it is modeled after the New York state law. It also provides for a uniform system of report, each company making a report to and no more. It gives the national commissioner authority to supervise and investigate the records and business of any company at any time he may deem necessary or expedient. Ohio is now the only state that makes of the companies of their own and so more at all. F. P. OLCOTT of New York, a leading Democrat and President of the Central Trust Company, has openly bothed the domination of CLEVELAND. He says CLEVELAND is a Mugwump Republican, and if he has to vote for a Republican he prefers to vote for the simon pure article, which is Harrison.

THE total production of pig iron in the United States in the first half of 1820 was 4,760,056 gross tons, against 4,911,758 tons in the second half of 1891, a decrease of 112,707 tons. Adding the production of the two half years we have the extraordinary production of 5,710,819 gross tons in twelve months, which is 508,116 tons in excess of the production of 9,202,708 tons in 1800. Hame the McKingle half for this if you like the production of 9,202,708 tons in 1800. production of 9,202,703 tons in 1890. Blame the McKinley bill for this, if you

SENATOR WALL of this county has introduced a bill in the Kentucky Senate in the interests of the Democratic party. It seeks to take seven Republican counties out of the First Appellate Court counties out of the First Appellate Court bistriet and place them in the Second Distriet. It is claimed that this will make the District safely Democratic, and secure the election of a bemocrat in the coming contest. It appears that in Kentucky at least the minority has no rights that the majority feels called upon to respect. It is admitted upon all sides that Chief Justice HoIr is one of the ablest and purest men that ever sat upon the Supreme Court bench of Kentucky, and this is the Democratic plan to prevent him from being his own successor.
